16:15 - 16:25 CET	15:15 -15:25 GMT	10:15 - 10:25 EST	<p>Health Break</p>
16:25 - 16:30 CET	15:25 -15:30 GMT	10:25 -10:30 EST	<p>Video Message The role of Dementia and Technology In the Silver Economy</p> <p>Conny Helder, Minister for Long-term Care and Sport, Netherlands</p>

16:30 - 17:20 CET	15:30 -16:20 GMT	10:30 - 11:20 EST	<p>Panel Pathway to Innovation for Healthy Aging: Investments for Longer, Healthier Lives</p> <p>Innovations in biomedicine and technology in healthcare across the 20th century have brought us our unprecedented longevity – now a gift for our 21st century. But innovation cannot stop there; we must aspire to achieve healthier longevity for all, which requires continual investment, commitment and creative partnerships and collaborations to incentivize innovators to achieve the next great breakthrough. Panelists will discuss how the pursuit of equity in healthy aging, the complexities of multiple co-morbidities and the nuances of the market landscape are spurring how we should think about ensuring investments in health for the future.</p> <ul style="list-style-type: none">• Moderator: John Beard, Professor, ARC Centre of Excellence in Population Ageing Research (CEPAR), University of New South Wales; Chair, Global Coalition on Aging Advisory Council; Former Director, Department of Ageing and Life Course, World Health Organization• Mike Devoy, Chief Medical Officer, Executive VP, Medical Affairs & Pharmacovigilance, Bayer• Richard Jackson, President, Global Aging Institute• Sue Peschin, President and CEO, Alliance for Aging Research• Jason Sterne, Associate Director, Policy Advocacy and Alliances, Gilead• Amanda Stucke, MPH, Principal & Americas Regional Lead, Health Policy, Economist Impact
17:20 - 18:15 CET	16:20 -17:15 GMT	11:20 - 12:15 EST	<p>Panel Investing in Longevity: How to Boost Financial Resilience as we Age</p> <p>Longevity is one of the most impactful forces shaping the global economy. As people over the age of 60 double their numbers in the coming decades, how can they stay financially resilient in an increasingly unpredictable world? Reforming retirement and pension systems to meet the needs of an aging population will take time - what are the simple and actionable solutions that people can employ today to support this longer life? This discussion will explore the crucial role the financial services industry can play in supporting this demographic transformation.</p> <ul style="list-style-type: none">• Moderator: Haleh Nazeri, Platform Curator, Shaping the Future of Financial and Monetary Systems, World Economic Forum• Ramsey Alwin, President & CEO, NCOA• Andre Belelieu, Head of Insurance, Asset Management, and Institutional Investors, World Economic Forum• Joanne Moore, Vice President, Thought Leadership and Strategic Programs, Corebridge Financial• Rich Nuzum, Executive Director, Investments and Global Chief Investment Strategist, Mercer

18:15 - 18:55 CET	17:15 -17:55 GMT	12:15 - 12:55 EST	Lunch in New York / Networking & Reception in Dublin
18:55 - 19:00 CET	17:55 -18:00 GMT	12:55 - 13:00 EST	<p>Keynote Maximizing the Potential of Japan's Super-Aging Society Japan is rapidly aging and the world's first super-aging society. Japanese policymakers are increasingly taking action to make changes that can extend the health, activity and productivity of its citizens, with lessons for super-aging societies to follow.</p> <ul style="list-style-type: none"> • Keizo Takemi, Member, House of Councilors, Japanese Parliament, Japan (<i>video message</i>)
19:00 - 19:05 CET	18:00 -18:05 GMT	13:00 - 13:05 EST	<p>Video Message Local Government Spotlight: Colorado's Aging Workforce Strategy Colorado has developed an aging workforce strategy to enhance participation of older citizens across society. Gov. Polis will share why and how they are implementing this strategy and seeing economic growth.</p> <ul style="list-style-type: none"> • Jared Polis, Governor, Colorado, USA
19:05 - 19:50 CET	18:05 -18:50 GMT	13:05 - 13:50 EST	<p>Panel The Employer's Role in an Aging Society Employers large and small are facing the impacts of an aging society. Whether a local government or a global company, age-inclusiveness will become a key differentiator in the competition for talent, with implications on workplace culture, the ability to adapt to changing societal needs and overall productivity. This discussion will showcase age-inclusive strategies underway around the world.</p> <ul style="list-style-type: none"> • Moderator: Richard Eisenberg, Journalist, MarketWatch, Next Avenue • Catherine Collinson, President and CEO, Transamerica Institute • Peter Kaldes, President & CEO, American Society on Aging • Brian Kaskie, Professor, University of Iowa College of Public Health • Ritu Sadana, Head, WHO Secretariat, Council on the Economics of Health for All; Unit Head, Ageing and Health, World Health Organization • Mikiro Suga, Director, Health & Welfare Department, Japan External Trade Organization (JETRO)

19:50 - 20:40 CET	18:50 -19:40 GMT	13:50 -14:40 EST	<p>Panel From Science to Bedside: Defining the New Paradigm for Advancements in Alzheimer’s and Dementia</p> <p>The near-perfect alignment of Alzheimer’s and other dementias to the aging mega-trend brings about urgency for innovation. Absent new innovations in effective therapies, diagnostics, caregiving and social framing, Alzheimer’s will continue to be a barrier to healthy aging and fiscal sustainability. However, even with great innovation, if care at the bedside is not transformed, patients will not benefit. Progress in this space will depend on value-based incentives and new paradigms for diagnosis, care and other supports. Programs like the Davos Alzheimer’s Collaborative are using implementation science to study the impact of innovation in real-world settings. Panelists will describe efforts to reframe Alzheimer’s to help remove the stigma, prepare health systems, and spur innovation.</p> <ul style="list-style-type: none">• Moderator: Phyllis Barkman Ferrell, Global Head, External Engagement, Alzheimer’s Disease and Neurodegeneration, Eli Lilly & Company; Healthsystem Preparedness Program Lead, Davos Alzheimer’s Collaborative• Ishtar Govia, PhD, Senior Lecturer, Caribbean Institute for Health Research• Chris Lynch, Deputy CEO at Alzheimer’s Disease International (ADI) and Director of Policy, Communications & Publications• Craig W. Ritchie, Professor of the Psychiatry of Ageing, Centre for Clinical Brain Sciences, University of Edinburgh; Visiting Professor, Imperial College London• Steven R. Smith, MD, Chief Scientific Officer and Senior Vice President, AdventHealth
20:40 - 21:00 CET	19:40 - 20:00 GMT	14:40 - 15:00 EST	Close and Reception in New York
